## Alcove Bath Upgrades

---

### Chromatherapy

Immerse yourself within a sea of light created by a dual mini-light Chromatherapy system. Bathers can choose between red, orange, yellow, green, blue, turquoise, and magenta, or cycle through a range of 9 blended colours. Combine Chromatherapy with a massage system to create a total spa experience.

---

### Lateral Air

16 jets mounted around the perimeter of the bathing well infuse the water with a soothing stream of massaging bubbles. A ceramic heating core preheats the air as a 600-Watt Panasonic™ blower delivers a steady stream of warm air bubbles to the bather. Use the variable speed control pad to vary the intensity of the massage to your mood.

Enjoy peace of mind in knowing that all blowers are preprogrammed with an auto-drying cycle to clean and dry the system after every use.

---

### Pure Bubbles

The newest trend in home spas, the Pure Bubbles system injects a continuous flow of micro-bubbles into the water column. The micro-bubble technology turns a bath into a dense cloud of tiny bubbles small enough to naturally cleanse pores and gently exfoliate the skin. A Pure Bubbles bath will leave your skin feeling hydrated and silky smooth.

---

### HydroMassage

The hydromassage is the most vigorous of all available upgrades, featuring a  $\frac{3}{4}$  hp high efficiency pump. Bath water circulates through 6 or more adjustable jets to deliver targeted massaging action with variable levels of intensity. Upgrade this massage system by adding additional jets or adding an in-line heater to help maintain your bath's water temperature.

---

### ComfortWarm™

ComfortWarm™ uses radiant heat technology to directly heat the surface of the bathtub's back-rest. Use the three heat settings to adjust the heat intensity at any time with a simple press of the electronic touchpad.

---

### VIBE Sound

The Vibe System allows you to enjoy your music or radio at the touch of a button in your shower or bathtub. The vibes of the music are synchronized with a Chromatherapy system that will change colors in synch with every beat of your favorite music.

---

### Aromatherapy

Only a few drops of fragrance are needed. The system works using a pump which leads the air towards the receptacle which is filled with a combination of water and a few essential oil drops. Once the aromatherapy system is turned on, the diffuser spreads the natural scent of the essential oil into the ambient air.

---

## Drop-In Bath Upgrades

---

### Chromatherapy

Immerse yourself within a sea of light created by a dual mini-light Chromatherapy system. Bathers can choose between red, orange, yellow, green, blue, turquoise, and magenta, or cycle through a range of 9 blended colours. Combine Chromatherapy with a massage system to create a total spa experience.

---

### Lateral Air

16 jets mounted around the perimeter of the bathing well infuse the water with a soothing stream of massaging bubbles. A ceramic heating core preheats the air as a 600-Watt Panasonic™ blower delivers a steady stream of warm air bubbles to the bather. Use the variable speed control pad to vary the intensity of the massage to your mood.

Enjoy peace of mind in knowing that all blowers are preprogrammed with an auto-drying cycle to clean and dry the system after every use.

---

### Pure Bubbles

The newest trend in home spas, the Pure Bubbles system injects a continuous flow of micro-bubbles into the water column. The micro-bubble technology turns a bath into a dense cloud of tiny bubbles small enough to naturally cleanse pores and gently exfoliate the skin. A Pure Bubbles bath will leave your skin feeling hydrated and silky smooth.

---

### HydroMassage

The hydromassage is the most vigorous of all available upgrades, featuring a  $\frac{3}{4}$  hp high efficiency pump. Bath water circulates through 6 or more adjustable jets to deliver targeted massaging action with variable levels of intensity. Upgrade this massage system by adding additional jets or adding an in-line heater to help maintain your bath's water temperature.

---

### ComfortWarm™

ComfortWarm™ uses radiant heat technology to directly heat the surface of the bathtub's back-rest. Use the three heat settings to adjust the heat intensity at any time with a simple press of the electronic touchpad.

---

### VIBE Sound

The Vibe System allows you to enjoy your music or radio at the touch of a button in your shower or bathtub. The vibes of the music are synchronized with a Chromatherapy system that will change colors in synch with every beat of your favorite music.

---

### Aromatherapy

Only a few drops of fragrance are needed. The system works using a pump which leads the air towards the receptacle which is filled with a combination of water and a few essential oil drops. Once the aromatherapy system is turned on, the diffuser spreads the natural scent of the essential oil into the ambient air.

---

## **Freestanding Bath Upgrades**

---

### **Chromatherapy**

Immerse yourself within a sea of light created by a dual mini-light Chromatherapy system. Bathers can choose between red, orange, yellow, green, blue, turquoise, and magenta, or cycle through a range of 9 blended colours. Combine Chromatherapy with a massage system to create a total spa experience.

---

### **Lateral Air**

16 jets mounted around the perimeter of the bathing well infuse the water with a soothing stream of massaging bubbles. A ceramic heating core preheats the air as a 600-Watt Panasonic™ blower delivers a steady stream of warm air bubbles to the bather. Use the variable speed control pad to vary the intensity of the massage to your mood.

Enjoy peace of mind in knowing that all blowers are preprogrammed with an auto-drying cycle to clean and dry the system after every use.

---

### **Roughin EZ**

The Roughin EZ Drain provides an easy way to install a free standing bathtub. Kit includes a reusable test plug, twist lock coupling, brass tailpiece, nut and flat washer.

---

### **ComfortWarm™**

ComfortWarm™ uses radiant heat technology to directly heat the surface of the bathtub's back-rest. Use the three heat settings to adjust the heat intensity at any time with a simple press of the electronic touchpad.

---

### **VIBE Sound**

The Vibe System allows you to enjoy your music or radio at the touch of a button in your shower or bathtub. The vibes of the music are synchronized with a Chromatherapy system that will change colors in synch with every beat of your favorite music.

---

### **Aromatherapy**

Only a few drops of fragrance are needed. The system works using a pump which leads the air towards the receptacle which is filled with a combination of water and a few essential oil drops. Once the aromatherapy system is turned on, the diffuser spreads the natural scent of the essential oil into the ambient air.

---

## Semi-Freestanding Bath Upgrades

---

### Chromatherapy

Immerse yourself within a sea of light created by a dual mini-light Chromatherapy system. Bathers can choose between red, orange, yellow, green, blue, turquoise, and magenta, or cycle through a range of 9 blended colours. Combine Chromatherapy with a massage system to create a total spa experience.

---

### Lateral Air

16 jets mounted around the perimeter of the bathing well infuse the water with a soothing stream of massaging bubbles. A ceramic heating core preheats the air as a 600-Watt Panasonic™ blower delivers a steady stream of warm air bubbles to the bather. Use the variable speed control pad to vary the intensity of the massage to your mood.

Enjoy peace of mind in knowing that all blowers are preprogrammed with an auto-drying cycle to clean and dry the system after every use.

---

### Roughin EZ

The Roughin EZ Drain provides an easy way to install a free standing bathtub. Kit includes a reusable test plug, twist lock coupling, brass tailpiece, nut and flat washer.

---

### ComfortWarm™

ComfortWarm™ uses radiant heat technology to directly heat the surface of the bathtub's back-rest. Use the three heat settings to adjust the heat intensity at any time with a simple press of the electronic touchpad.

---

### VIBE Sound

The Vibe System allows you to enjoy your music or radio at the touch of a button in your shower or bathtub. The vibes of the music are synchronized with a Chromatherapy system that will change colors in synch with every beat of your favorite music.

---

### Aromatherapy

Only a few drops of fragrance are needed. The system works using a pump which leads the air towards the receptacle which is filled with a combination of water and a few essential oil drops. Once the aromatherapy system is turned on, the diffuser spreads the natural scent of the essential oil into the ambient air.

---

A Length	B Width	C Height	D Immersion Depth
59"	32 ¼"	23"	15 ½"

## Niche

### Part #

LH - 44601

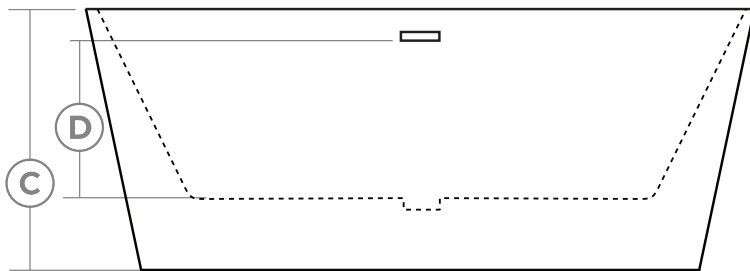

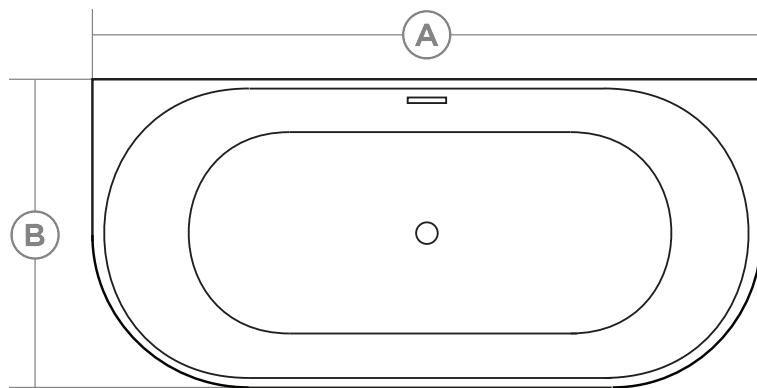

RH - 44602

### Features

- Seamless one-piece design
- Overflow plate included
- Designed for corner installations
- Includes tiling flange not installed
- Clicker style pop-up drain
- Flow through style drain
- Internal steel frame
- Adjustable legs

### Upgrades (See pg. 2-6 for details)

- Chromatherapy
- Lateral Air
- Roughin EZ Drain
- ComfortWarm™
- VIBE Sound
- Aromatherapy
- Colored drain options available  
(See pg. 5 in this section)

## Rochelle

**Part #**

**59"** - 44275

**67"** - 44276

**Features**

- Seamless one-piece design
- Slotted overflow
- Includes tiling flange not installed
- Finished on all sides
- Clicker style pop-up drain
- Flow through style drain
- Internal steel frame
- Adjustable legs

**Upgrades** (See pg. 2-6 for details)

- Chromatherapy
- Lateral Air
- Roughin EZ Drain
- 2 x ComfortWarm™
- VIBE Sound
- Aromatherapy
- Colored drain options available (See pg. 5 in this section)

**Description**

Undermount Installation Kit

While supplies last, please contact us before placing the order.

## Single Offset Bowl - Must add drilling for faucet

Model	Dimensions	Profile Height	LH Drain #	RH Drain #
RA-3020	29 1/8" x 19 1/2"	3 5/8"	30021	30031
RA-3020LP	29 1/8" x 19 1/2"	1 5/8"	30022	30032
RA-3620	35 1/8" x 19 1/2"	3 5/8"	30061	30071
RA-3620LP	35 1/8" x 19 1/2"	1 5/8"	30062	30072
RA-4720	47" x 19 3/8"	4"	30101	30111
RA-4720LP	47" x 19 3/8"	1 5/8"	30102	30112

Example: 30021.01 = RA-3020 LH Basin with a single faucet hole.

## Pure Basins Options

- Available with finished backs upon request
- Available in a variety of profile heights
- Custom heights may be available upon request
- Include drilling instructions when ordering

### Pre-Drilled Faucet Holes

Single Hole Centered	Add ("-01" to part number)
3 Holes @ 4"	Add ("-04" to part number)
3 Holes @ 8"	Add ("-08" to part number)

**8 | Basins**  
**Pure Basin**

While supplies last, please contact us before placing the order.

**Double Bowl - Must add drilling for faucet**

Model	Dimensions	Profile Height	Part #
RA-5520	54 ¾" x 19 ½"	4"	30121
RA-5520LP	54 ¾" x 19 ½"	1 ⅝"	30122

Example: 30021.01 = RA-3020 LH Basin with a single faucet hole.

**Pure Basins Options**

- Available with finished backs upon request
- Available in a variety of profile heights
- Custom heights may be available upon request
- Include drilling instructions when ordering

**Pre-Drilled Faucet Holes**

Single Hole Centered	Add ("-01" to part number)
3 Holes @ 4"	Add ("-04" to part number)
3 Holes @ 8"	Add ("-08" to part number)

## Pure Basins Options

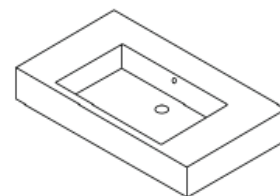

- Available with finished backs upon request
- Available in a variety of profile heights
- Custom heights may be available upon request

Single Lever Free-Standing Faucet

---

### Part #

83031

---

### Features

- Ceramic disc single lever cartridge
- Solid brass construction
- Triple-plated chrome finish.
- Triple-seal water supply system

### Technical Specifications

- 6 gal / minute spout flow rate @ 65 psi
- Minimum operating temp.: 0 °C
- Maximum operating temp.: 90 °C

## Brixton

Single Lever Free-Standing Faucet

---

### Part #

83096

---

### Features

- Ceramic disc single lever cartridge
- Solid brass construction
- Triple-plated chrome finish.
- Triple-seal water supply system

### Technical Specifications

- 6.5 gal / minute spout flow rate @ 58 psi
- Minimum operating temp.: 4 °C
- Maximum operating temp.: 90 °C

## Ernst

Single Lever Free-Standing Faucet

---

### Part #

83091

---

### Features

- Ceramic disc single lever cartridge
- Solid brass construction
- Triple-plated chrome finish.
- Triple-seal water supply system

### Technical Specifications

- 5.7 gal / minute spout flow rate @ 58 psi
- Minimum operating temp.: 0 °C
- Maximum operating temp.: 90 °C

## Imara

Single Lever Handle Free-Standing Faucet

---

### Part #

83061

---

### Features

- Ceramic disc single lever cartridge
- Solid brass construction
- Triple-plated chrome finish.
- Triple-seal water supply system

### Technical Specifications

- 5.5 gal / minute spout flow rate @ 65 psi
- Minimum operating temp.: 0 °C
- Maximum operating temp.: 90 °C

## Moderno

Dual Lever or Cross Handle Free-Standing Faucet

---

Product	Part #
Chrome w/ Cross Handles	83021
Chrome w/ Lever Handles	83011

### Features

- Two ¼ turn ceramic cartridges
- Solid brass construction
- Triple-plated chrome finish
- Triple-seal water supply system

### Technical Specifications

- 5 gal / minute spout flow rate @ 65 psi
- Minimum operating temp.: 0 °C
- Maximum operating temp.: 90 °C

## Quadratto

Single Lever Free-Standing Faucet

---

**Part #**  
83041

---

### Features

- Ceramic disc single lever cartridge
- Solid brass construction
- Triple-plated chrome finish.
- Triple-seal water supply system

### Technical Specifications

- 5.6 gal / minute spout flow rate @ 65 psi
- Minimum operating temp.: 0 °C
- Maximum operating temp.: 90 °C

## Monarch

<b>Chrome</b>	
- Cross Handles & Stops	81031
- Lever Handles & Stops	81041
<b>Brushed Nickel</b>	
- Cross Handles & Stops	81072
- Lever Handles & Stops	81082

## Monarch Risers

With Cross handle Shut-off Valves

Product	Part #
Chrome w/ Cross Handles	80125
Brushed Nickel w/ Cross Handles	80126

### Features

- Solid brass construction
- Triple-plated chrome finish
- $\frac{3}{4}$ " M x  $\frac{3}{4}$ " M with shut-off valve
- 31  $\frac{1}{2}$ " Tall

## Monarch Wall Mount

Dual Lever or Cross Handle Faucet

Product	Part #
Chrome w/ Cross Handles	80022
Chrome w/ Lever Handles	80023

### Features

- Two  $\frac{1}{4}$  turn ceramic cartridges
- Solid brass construction
- Triple-plated chrome finish
- Triple-seal water supply system

### Technical Specifications

- 5 gal / minute spout flow rate @ 65 psi
- Minimum operating temp.: 0 °C
- Maximum operating temp.: 90 °C

## Monarch Deck Mount

Dual Lever or Cross Handle Faucet

Product	Part #
Chrome w/ Cross Handles	82011
Chrome w/ Lever Handles	82021

### Features

- Two ¼ turn ceramic cartridges
- Solid brass construction
- Triple-plated chrome finish
- Triple-seal water supply system
- Comes with adjustable pillars

### Technical Specifications

- 5 gal / minute spout flow rate @ 65 psi
- Minimum operating temp.: 0 °C
- Maximum operating temp.: 90 °C
- Minimum operating pressure: 7 psi
- Maximum operating pressure: 145 psi

## Anthony

Single Lever Faucet

### Part #

86002

### Features

- Single lever handle
- Ceramic disc single lever cartridge
- Solid brass construction
- Triple-plated chrome finish.
- Triple-seal water supply system

## Pierre

Single Lever Faucet

---

**Part #**

86001

---

**Features**

- Single lever handle
- Ceramic disc single lever cartridge
- Solid brass construction
- Triple-plated chrome finish.
- Triple-seal water supply system

## Michael

Single Lever Faucet

---

**Part #**

86003

---

**Features**

- Ceramic disc single lever cartridge
- Solid brass construction
- Triple-plated chrome finish.
- Triple-seal water supply system

## Walk-In Bath Upgrades

---

### Chromatherapy

Immerse yourself within a sea of light created by a dual mini-light Chromatherapy system. Bathers can choose between red, orange, yellow, green, blue, turquoise, and magenta, or cycle through a range of 9 blended colours. Combine Chromatherapy with a massage system to create a total spa experience.

---

### Lateral Air

16 jets mounted around the perimeter of the bathing well infuse the water with a soothing stream of massaging bubbles. A ceramic heating core preheats the air as a 600-Watt Panasonic™ blower delivers a steady stream of warm air bubbles to the bather. Use the variable speed control pad to vary the intensity of the massage to your mood.

Enjoy peace of mind in knowing that all blowers are preprogrammed with an auto-drying cycle to clean and dry the system after every use.

---

### Pure Bubbles

The newest trend in home spas, the Pure Bubbles system injects a continuous flow of micro-bubbles into the water column. The micro-bubble technology turns a bath into a dense cloud of tiny bubbles small enough to naturally cleanse pores and gently exfoliate the skin. A Pure Bubbles bath will leave your skin feeling hydrated and silky smooth.

---

### HydroMassage

The hydromassage is the most vigorous of all available upgrades, featuring a  $\frac{3}{4}$  hp high efficiency pump. Bath water circulates through 6 or more adjustable jets to deliver targeted massaging action with variable levels of intensity. Upgrade this massage system by adding additional jets or adding an in-line heater to help maintain your bath's water temperature.

---

### ComfortWarm™

ComfortWarm™ uses radiant heat technology to directly heat the surface of the bathtub's back-rest. Use the three heat settings to adjust the heat intensity at any time with a simple press of the electronic touchpad.

---

### VIBE Sound

The Vibe System allows you to enjoy your music or radio at the touch of a button in your shower or bathtub. The vibes of the music are synchronized with a Chromatherapy system that will change colors in synch with every beat of your favorite music.

---

### Aromatherapy

Only a few drops of fragrance are needed. The system works using a pump which leads the air towards the receptacle which is filled with a combination of water and a few essential oil drops. Once the aromatherapy system is turned on, the diffuser spreads the natural scent of the essential oil into the ambient air.

---
